

### From the Breakfast Table: May 2019

We welcome our 6th democratically elected government headed by President Ramaphosa and supported by his cabinet. We wish our President and his team well as they – together with the support of the private sector – transform and grow our economy. Bryte, is committed to the prosperity and transformation of our country. The development of the tourism sector is vital to supporting the growth of our economy and earlier this month there was much excitement in Durban at the Africa Travel Indaba where many African countries, South African hotels, lodges, adventure activities and many more, showcased their offering to the worldwide traders. It is an event that always makes me proud to be a South African.

A highlight of the Indaba was the address by President Ramaphosa who reaffirmed the fact that tourism stimulates the economy, develops small businesses and that it will play a critical role in South Africa's strategy. He acknowledged that we have a number of challenges that need to be addressed – from streamlining tourism visas to improving the quality of the domestic tourism industry. To read President Ramaphosa's address, please [click here](#).

In this issue, we share details about policy changes that have been made and request that you inform our mutual customers about these changes. Our liability claims specialists have provided insights on how to assist customers when faced with an injury and damaged third-party property. Keeping guests warm in winter presents some risks to customers' properties – our risk engineers provide details about faulty electrics.

#### Important Notice

Policy changes effective 1 July 2019
